The Bald Eagle

Directions:

- (1) Cut apart the word boxes and organize them into topics, such as life cycle, behaviors, classification, size, etc.
- (2) Work with your group to develop a concept web using the box to the left as the center. You may add additional terms to add details to your web.
- (3) Once you have the web complete, glue the word boxes into place and add lines with labels to finish it.

You must use at least ____ terms.
