

Insect Mania

Insect Collection Requirements

The collections must contain a minimum of 10 different specimens in good condition. Each specimen must be correctly labeled, identified, and in good condition. A sample label has been provided to help you. Points will be deducted for specimens with missing or damaged body parts as well as for labels that are incorrect or incomplete.

Insect Jeopardy

Create a game about insects using the Jeopardy game format. Your game must include at least 5 different topics with 5 questions for each topic. Provide an answer key for your project.

Topic	Topic	Topic	Topic	Topic
100	100	100	100	100
200	200	200	200	200
300	300	300	300	300
400	400	400	400	400
500	500	500	500	500

Insect Poster

Create a poster to educate children on the variety of insects in the world. Posters must include at least 4 different orders of insects. For each order, provide at least 3 examples (pictures and common names), basic anatomy, life cycle, and 3 interesting facts.

Use each section to describe
4 different orders of insects.

Insect Orders
 Orthoptera Lepidoptera Hymenoptera
 Odonata Diptera Coleoptera
 Hemiptera Homoptera

Insect Book

Create a story book for children related to one of the insect orders. The book must have at least 10 pages including text and illustrations and include information about basic anatomy, life cycle, and favorite foods.

Insect Fact Cards

Create at least 15 insect fact cards. Each card must include a picture of the insect, common name, scientific name, order, favorite foods, and 3 interesting facts.
