

Nature Squares

Name _____

Choose a spot for your nature square, then record everything you find in that area. Label all the finds (name or description) before answering the questions on the back of this page.

Classify all the items as biotic (living) or abiotic (nonliving).

Biotic (living things)

Abiotic (nonliving things)

How many different items did you find? _____

How many of the items belong to the plant kingdom? _____

How many would belong to the animal kingdom? _____

Choose two items from the biotic list and describe their role in the environment.

Choose two items from the abiotic list and describe their role in the environment.
