

If you had unlimited funds and four days to explore the United States, where would you go and what would you do?

Planning: Use the Internet sites provided on the Road Trip USA page of the Student Zone at the HJHS website to help you plan your trip.

1. Make a list of the places you would like to visit and the things you plan to do at each location. You will need one location (city, park, etc.) for each day.
2. Organize your trip so that it you can travel to each location in a reasonable manner – fly by plane, drive a rental car, ride a train, etc.
3. Research each location to discover interesting facts to help you write a good description for each place you visit.

Presentation Requirements: Your final presentation must include...

Title Slide - Create a title slide that includes a title for your trip as well as your first and last names.

- You must use the WordArt tool to create the title for this slide.
- You also need to include a background or picture that reflects the theme of your vacation.

Travel Slides - Create four slides that outline what you will do each day of your trip.

- Try to be as specific as possible when describing the places you plan to visit or the things you will do each day.
- You must visit one town, city, park, etc. each day!
- You must visit two attractions or do two things at each location. Each slide must include two paragraphs (3-5 sentences each) to describe the two places you visited.
- Each slide must include two pictures – one of each place you visit. You may use clip art from the Microsoft Online gallery, a Google image search, or other websites.

Remember ... You need to visit TWO places at each location and provide a paragraph for each as well as a picture.

Travel Map - Create a final slide that includes a map to show the various locations you visited during your trip along with a summary of the total distance you traveled.

- Find a map diagram that shows the locations you visited. Use the tools available in the drawing toolbar to label your map with arrows and text boxes to show the trip from start to finish.
- Use the *Custom Animation* option to animate the arrows on this slide to show where you traveled from Day 1 to Day 4.
- Each arrow must be labeled with the distance traveled between each location. Use the “How Far Is It?” or MapQuest to help you calculate distances. Go to the Road Trip USA sites to find the links!
- You will also need to include the total distance you traveled during the entire trip somewhere on the slide.

YOU CANNOT START CREATING YOUR PRESENTATION UNTIL THE PLANNING PAGE HAS BEEN COMPLETED AND APPROVED BY YOUR TEACHER!
